PROFILE SUMMARY

Detail-oriented Full Stack Developer and Web Application Developer with a Bachelor's degree in Computer Science Engineering. Skilled in bridging the gap between front-end aesthetics and back-end functionality using Python, HTML, CSS, and modern JS frameworks. Solid understanding of the Software Development Life Cycle (SDLC) and cloud deployment basics. Seeking an entry-level role to apply my debugging skills and architectural knowledge to build high-performance web applications.

TECHNICAL SKILLS

- Python, Java
- HTML, CSS, JavaScript
- SQL, MS Excel, MS PowerPoint, Tableau

INTERSHIPS & WORK EXPERIENCE

- Designed and developed responsive web and mobile application interfaces using HTML/CSS/JS.
- Gained hands-on experience in application lifecycle, UI basics, and deployment practices.
- Learned cloud computing fundamentals and Generative AI concepts using AWS services.
- Worked with device data ingestion, cloud storage, and real-time monitoring.
- Enhanced understanding of machine learning workflows, cloud deployment, and AI ethics.

PROJECT

Deep Generative Adversarial Network Framework for Image Deblurring

- Gained experience using a Deep Feature Loss (often via a pre-trained VGG network) to ensure the deblurred image "feels" like the original, rather than just matching pixel colours.
- Implemented a Generator (to deblur) and a Discriminator (to critique), mastering the "min max" game where the networks compete to improve image realism.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Dr. K.V. Subba Reddy Institute of Technology, Kurnool

July 2022 – Jan 2026

CGPA: 7.9

CERTIFICATIONS

- **Certifications in Rومان Technologies Internship - Deloitte for Data Analytics Job Simulation - Public Speaking NPTEL - AWS Academy Virtual Intern**
